

# TRIAGE AND TREATMENT

## Emergency Medical Care

Most medical emergencies can be treated at Christie Clinic's Department of Occupational Health Services offices during regular business hours Monday through Friday. Our staff is available for immediate post-accident drug and breath alcohol testing.

In the event of after-hours injuries or illnesses, please contact our Convenient Care facility at 217.366.8130. Office hours are 12-8 p.m. Monday through Friday and 8 a.m.-8 p.m. on Saturday and Sunday. No appointments are necessary, and you don't have to be a Christie patient to use Convenient Care.

## Return to Work

Christie Clinic's Department of Occupational Health Services is committed to reducing the lost time and overall cost of employee injuries and illnesses. That's why we utilize state-of-the-art testing equipment to accurately identify employee rehabilitation needs. Our specialized rehab programs focus on increasing physical strength, cardiovascular endurance, and work tolerance levels.

- *Emergency medical care*
- *Burns*
- *Foreign body removal from eyes*
- *Cuts & lacerations*
- *Fractures*
- *Carpal tunnel syndrome*
- *Strains/sprains*
- *Chemical exposure*

Our individualized programs enable employees to strengthen and test their abilities to perform job tasks under the guidance of Christie's professional team.

Christie's return-to-work programs often incorporate modified duties at work, along with clinic-based rehabilitation. This allows employees to reintegrate into the workplace early on, while still receiving the necessary instruction and rehab time.

## Case Management

To help keep employers and insurance providers in the know, Christie's case management team provides the current medical status and estimated recovery time of injured employees. For more information, contact the Department of Occupational Health Services at 217.366.1310.
