

WELLNESS AND HEALTH SERVICES FOR EMPLOYEES

In life, few things are more important than personal health. At Christie Clinic, we understand the benefits wellness and vitality provide in a successful business environment. That's why our Department of Occupational Health Services creates and implements specialized health services designed to improve employee health and prevent illness, injury, and absence.

Special Testing Services

To help reduce health and disability costs, Christie offers a variety of special tests and examinations, including pulmonary function testing, EKGs, breath alcohol testing, audiograms, vision testing, and cholesterol testing.

Our goal is to provide you with the best absence management resources available. That's why our health and wellness services allow employers to confidently place employees in physically demanding situations that require special manipulation of motorized equipment or specific levels of cardiovascular function or involve unique occupational stressors.

- *Special testing services including EKGs and vision testing*
- *Health screenings*
- *Hepatitis, T.B., blood pressure, and cholesterol screenings*
- *Management and executive examinations*
- *Ergonomic consulting*

Periodic Examinations

Our periodic physical examinations ensure the continued good health of employees, reducing work loss and inefficiency caused by illness and injury.

Management/Executive Examinations

For management and executive staff members, our Department of Occupational Health Services designs individual medical examinations that ensure the health of professionals in high-stress occupations. These examinations can include a variety of laboratory, x-ray, and diagnostic services, including mammograms, stress EKGs, fitness measurements, and prostate level measurements.
