

MEET YOUR *Audiologist...*

LAURA HURST, AuD

WHY I CHOSE AUDIOLOGY

"I have always had a keen interest in the medical field. I looked into physical therapy and nursing before deciding on audiology. I love that I get to work with people of all ages, from newborns and their families to those over 100. I learn something from each of them."

DOCTOR OF AUDIOLOGY: University of Florida, Gainesville

MS: University of Arizona, Tucson

BS: University of Arizona, Tucson

FELLOW: Fellow of the American Academy of Audiology (F-AAA)

CERTIFICATION: Certificate of Clinical Competence from ASHA (CCC-A)

DEPARTMENT OF AUDIOLOGY

As an audiologist, Laura Hurst provides diagnostic audiological testing, vestibular testing and rehabilitation, and hearing aid recommendation and fitting for patients of all ages.

"When not working, I might be found walking trails, bike riding with my husband, or helping out behind the scenes with CU Theatre Company."

"When talking with patients, I try to understand their needs and situations, so I can better help them select a solution to their hearing problems. If it's a medical issue, I want to help them and their doctor find the cause so it can hopefully be treated."
