

MEET YOUR *Physical Therapist...*

LALAINE UY-THOPE, PT

WHY I BECAME A PHYSICAL THERAPIST

"I decided to become a physical therapist since I have always wanted to be a part of the medical world. I enjoy helping people, and I love working with patients and being able to give them my best to make them feel better. My culturally mixed background has made me open minded."

BS: Southwestern University, Cebu, Philippines, Physical Therapy

DEPARTMENT OF PHYSICAL THERAPY

In Christie Clinic's Department of Physical Therapy, Lalaine plans, interprets, and implements specific physical therapy treatment programs for patients.

Lalaine and her husband have two wonderful boys who they adore and enjoy raising.

"My field of interest for physical therapy includes pre- and post-operative orthopaedic cases, neurological, geriatric, and various musculoskeletal symptoms. I believe in treating people the way I would like to be treated — fairly, with respect and understanding. My years as a physical therapist has imparted me with the knowledge and experiences to provide individualized care."
