

MEET YOUR *Radiologist...*

"My job is to look at images, generate a report, and effectively communicate the findings to the patient's physician as soon as possible so that medication decisions and treatment plans can be implemented immediately."

TINA MOLIS, MD, PhD

WHY I CHOSE RADIOLOGY

"Technology is constantly changing and improving. As a radiologist, I find this very exciting and challenging. I am always learning the newest, latest, and greatest techniques which keeps my job very interesting."

RESIDENCY: OSF Saint Francis Medical Center, Peoria, IL

MD: Louisiana State University Health Sciences Center, Shreveport, LA

PHD: Tulane University, New Orleans, LA, Anatomy

MS: University of Illinois at Urbana-Champaign, Biology
