

MEET YOUR *Physical Therapist...*

NANCY DAVIDSON, PT

WHY I CHOSE HEALTH CARE

"I was a high school athlete and hurt my shoulder during swim season. I received physical therapy and thought, 'What a great job; you can help people feel better.'"

EDUCATION: *University of Illinois at Chicago, Physical Therapy*

CERTIFICATION: *Aquatic Therapy and Rehab*

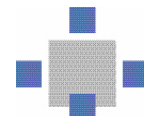

DEPARTMENT OF PHYSICAL THERAPY

As a member of the Department of Physical Therapy, Nancy treats musculoskeletal problems including acute chronic pain, overuse, and work-related injuries.

Nancy and her husband enjoy competing in long-distance swimming races and walking their dogs at Danville's excellent parks. They also enjoy traveling and volunteering with Central Indiana Lab Rescue and their church, Trinity Lutheran.

"I want my patients to feel comfortable and relaxed. I will do my best to help them achieve a full recovery. I have a very flexible schedule to accommodate my patients. It's not unheard of for me to meet a patient at the pool for aquatic physical therapy on my day off or on a weekend. I also have a specialty certification in Aquatic Therapy and Rehab, along with attending continuing education throughout the year."
