

MEET YOUR *Physical Therapist...* YOUR

KENT RICHMOND, PT

WHY I CHOSE HEALTH CARE

"I initially planned to attend medical school but changed course my senior year in college when my grandmother had a stroke. I saw the need for her care and decided to go to the physical therapy graduate program instead."

MHS: University of Indianapolis, Indiana, Orthopaedic Physical Therapy

BS: University of Iowa, Iowa City, General Science

CERTIFICATION: North American Institute of Manual Therapy-Level One

DEPARTMENT OF PHYSICAL THERAPY

In the Department of Physical Therapy, Kent provides comprehensive care for patients who require treatment in all phases of physical therapy. He provides preventive injury education, conditioning, and training, as well as sports injury evaluation, treatment, and rehabilitation.

Kent and his wife, Lana, have two grown sons. He is the manager of the Department of Physical Therapy.

"My attitude for patient care is to treat the patient as I would like to be treated. We often forget to personalize our patients. I try to provide medical care along with getting to know the patient personally, which can make treatments more enjoyable. I am continually trying to provide the latest in exercise programs and look forward to the challenge of treating patients with difficult problems."
