

MEET YOUR

Orthopaedic Surgeon...

SHAWN L. LOVE, MD

EDUCATED TO HEAL

"When I was in ninth grade, my high-school counselor informed me that in order to attend medical school and become a physician I had to first graduate from college. That very day, I ran home and told my mother I had to go to college; she cried as she told me she could never afford to send me. I went back and told my counselor, and she informed me that many colleges grant scholarships to students graduating at the top of their class. Thus, I aspired to graduate at the top of my class."

RESIDENCY: Wayne State University/Detroit Medical Center, Orthopaedic Surgery, 2000

MD: Baylor College of Medicine, Houston, TX, 1994

BA: Rice University, Human Physiology, Houston, TX, 1990

GRADUATE: Salutatorian, Summa Cum Laude, Aldine Sr. High School, Houston, TX, 1985

ADVANCED CARE: Work injuries; sports injuries; total joint replacement; osteoporosis; arthritis; hand, foot & ankle care; adult fracture & trauma care; pediatric fracture & trauma care

EXCHANGING KNOWLEDGE WITH HER PEERS

"I'm always looking for more effective and timesaving surgical and non-surgical techniques and the latest technological innovations—all with an eye toward how I can continue giving my patients the leading-edge treatment, rehabilitation, and preventive care they deserve."

Hospital Affiliation: Provena Covenant Medical Center

She is a wife to Parrish, active in her church, an award-winning poet, breast cancer survivor, and Taekwondo tournament mom to daughter Aja.

Researcher, Poet, & Lecturer

"One night, my father awoke unable to move his right leg. I was seven years old. He was diagnosed with an inoperable brain tumor and was given six months to live. Ergo, I grew up watching my father die a slow, agonizing, painful death spanning two years...always wondering if this would be his last day. Shortly after his death, at nine years of age, I decided to become a doctor so that I could help people like my dad live healthier, fuller lives."
