CHARLES C. SHYU, MD

WHY I CHOSE HEALTH CARE

"My interest in neurology began formally as an undergraduate student, where I worked with neuroscience doctors at The Beckman Institute. Their desire to better understand the amazing complexity of the human brain helped fuel my interest and intrigue. As a neurologist, I am able to fulfill my personal intellectual interest of understanding the brain, as well as try to help those who are unfortunate enough to have related problems."

DEPARTMENT OF NEUROLOGY

As a member of Christie Clinic's Department of Neurology, Dr. Shyu specializes in the diagnosis and treatment of disorders and diseases of the central and peripheral nervous system including: brain tumors, strokes, and seizures; neurodegenerative diseases, such as Alzheimer's disease and Parkinson's disease and other movement disorders; demyelinating diseases like multiple sclerosis; neuromuscular diseases such as neuropathies and myopathies; and also diseases that relate to cancer.

HOSPITAL AFFILIATION: Carle Foundation Hospital and Provena Covenant Medical Center

Dr. Shyu has family roots in Taiwan and grew up in New York state. In his free time, he enjoys reading about new computer technologies and playing chess and poker. He is also an amateur film reviewer.

"I'd like for patients to feel like I'm approachable with any questions or concerns that they might have; many patients feel that their visit to the doctor is one of the most important things they do in a particular day—I'd like to think that I can appreciate that feeling and give them the full attention they deserve."
