

Meet Your Family Medicine Provider

Dawn C. Brunner, MD

I hope that my patients realize they are a part of the decision making process at their appointment. Their input and thoughts are very important to me. I provide my patients with all possible treatment options so that they are completely involved in the thought process moving forward.

Why I became a Medical Provider

"When I was growing up medical discussions occurred on a regular basis in my home. My mother was a nurse and my brother is a primary care physician. I always had the intent to attend medical school and decided it was time to go back when my oldest daughter turned nine."
