

Meet Your Family Medicine Provider

Jeanelle Murphy, DO

When in my care, I want my patients to feel listened to and taken care of. I believe it is important to address the whole person and not just the symptom.

Why I Chose Healthcare

"I did mission work in Mexico and discovered I could really reach out to people through medicine. I'm a holistic physician, which means I take care of the whole patient. Not only do I focus on the patient's physical well-being but his/her emotional and spiritual well-being as well."
