

## Meet Your Internal Medicine & Pediatrics Physician

# Jeffrey C. Hoschek, MD, FAAP, DBIM

### Why I Chose Health Care

At the ages of 8 and 9, I experienced the deaths of my baby sister and baby brother in back-to-back years. At a time when tragic occurrences such as these were extremely hard to understand for a parent, let alone a child, I quickly realized this strong calling to one day become a physician. My focus from that age to work toward that goal was one of persistence. The challenge of pediatric medicine coupled with the enjoyment of helping a child not be “afraid to go to the doctor” is rewarding. Coupled with complete care of adults, internal medicine-pediatrics allows me to care for the whole family.

### Hospital Affiliation

Carle BroMenn Medical Center

### Departments of Internal Medicine & Pediatrics

In the Departments of Internal Medicine & Pediatrics, Dr. Hoschek provides comprehensive medical care for patients of all ages with an emphasis on wellness and preventative care.

*I grew up in a small farm town in west central Illinois. My love for nature, fishing and hunting fuels my passion for the outdoors and conservation, which I share with my wife and three children on our small farm.*

*Weight loss counseling is a big part of my practice. Seeing someone become successful with lifestyle changes that transform their health from the need for medications to independent wellness and an overall better quality of life is extremely important to me and one of the most satisfying things I have the pleasure of experiencing in medicine.*
