

Meet Your Pediatrician

Sarah Willard, MD

I am lucky to be able to provide support and guidance during annual visits and wellness checks, while children grow, while also diagnosing and treating childhood illnesses from infancy to young adulthood. It is an honor to work with families and children of all ages.

Why I Chose Health Care

"I choose healthcare because I have always been interested in health and wellness. I also wanted to be able to help others in my day-to-day work. Medicine is ever changing and allows me to learn something new everyday as I help my patients and their families."
