As a Physical Therapist, Stacey evaluates individuals who may have mechanical, functional, or movement related disorders. She determines and implements therapeutic interventions through the use of physical agents, and promotes the importance of fitness, health, and wellness.

*Outside of work, I enjoy training for half marathons and going to concerts. In addition, I enjoy spending time with my husband and children.*

*I strive to make sure I listen to my patients' needs and care for them as if they are family. I want my patients to know that I will do what is best for them based on the most up-to-date evidence based research.*
