

Meet Your Family Medicine Physician

Aasma Ahmed, MD

Why I Became a Medical Provider

I always wanted to pursue a profession by which I could make a difference in the lives of other people. Becoming a doctor has been my dream for as long as I remember. I am privileged to live my dream everyday. My father is a physician and he is my biggest inspiration in life. I strive to follow the same medical ethics that he did in his life.

Residency

Hunterdon Medical Center, Flemington, NJ

MD

King Edward Medical University, Lahore, Pakistan

Certification

Board Certified in Family Medicine

Professional Memberships

American Academy of Family Physicians, Illinois Academy of Family Physicians

Department of Family Medicine

In the Department of Family Medicine, Dr. Ahmed treats non-surgical illnesses or disorders from infancy through adulthood and promotes wellness care for patients of all ages.

I love to read, paint and spend time in nature. I am blessed to have three wonderful kids and I spend leisure time with my kids and my husband.

I believe that after our residency training in the U.S. we all are, more or less, at the same level. The thing that sets us apart is how much we care for our patients and how compassionate we are. When a patient walks in my clinic, I want them to feel that yes, I do care and will do everything that I can as a physician to help them.
