

Meet Your Nurse Practitioner

Julie Maley, APN, FNP-BC

Why I Chose Health Care

I have always had an interest in science and the human body. This interest, combined with caring for and educating people is what drew me into nursing as a career.

Education

Master of Nursing, Family Nurse Practitioner, Mennonite College of Nursing, Illinois State University, Normal, IL

Bachelor of Nursing, Millikin University, Decatur, IL

Certifications

MSN, FNP-BC, ANCC Certified

Professional Memberships

Illinois Society for Advanced Practice Nursing

Department of Orthopedics & Sports Medicine

With 20 years of experience in orthopedic surgery, Julie treats patients experiencing orthopedic injuries or ailments and enjoys the ability to change people's lives by relieving their pain and enabling them to be mobile and get back to enjoying their lives.

I enjoy spending time with my husband and two daughters. We enjoy hiking, attending St. Louis Cardinal Games and traveling together.

Orthopedics is an interesting area to me because it gives you the ability to change people's lives by getting them out of pain and enabling them to be mobile and enjoy life again.
