

Meet Your Family Nurse Practitioner

Molly Sandgren, FNP-C

Why I Chose Health Care

"Family Medicine allows me to get to know the whole patient and, sometimes, the whole family, which is such a blessing. I get to care for all ages, which is so fun! I love watching my patients grow and meet their goals."

Master's Degree

Nursing, Family Nurse Practitioner, University of St. Francis, Joliet, IL

Professional Memberships

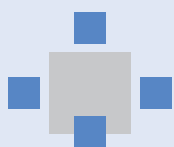

American Association of Nurse Practitioners

Department of Family Medicine

In the Department of Family Medicine, Molly specializes in the treatment of non-surgical diseases and disorders and wellness promotion for patients of all ages.

I love spending time with my friends and family. I enjoy watching sports. Personally, I have a goal of completing a marathon in every state.

I had always thought about healthcare growing up, but watching the nurses care for my father in the hospital, made me respect nursing as a profession even more. The nurses not only cared for my father, but also for me and my mother and I realized the impact that healthcare providers could have on the entire family. Now as a nurse practitioner, I have been blessed to be with patients on their healthcare journeys and I am so thankful for those experiences.
