

Meet Your Social Worker

Michele Heil, MSW, LCSW

Working with people to assist them during their health related challenges from understanding their health issues, to assisting in finding appropriate resources to providing counseling. Health care social work allows me to work with people from diagnosis to possibly end of life by assisting to clarify their care wishes and decisions for their current situation as well as assist as their needs and wishes change.

Why I Chose Health Care

I have always been drawn to healthcare from a young age and specifically working with adults and older adults.

Education

Masters of Social Work at University of Illinois at Urbana-Champaign

Bachelor of Science in Health Studies & Psychology at Eastern Illinois University

Certifications

Respecting Choices Advance Care Planning Facilitator, Non-Physician Geriatric certificate, Dementia Trainer certificate, Certified Bereavement Facilitator

Department of Internal Medicine

In the Department of Internal Medicine, Michele specializes in working with adults and elders with anxiety, depression, grief, cognitive deficits/dementia and/or chronic illnesses. She sees patients by Internal Medicine referral only.

I was born and raised in Illinois and I enjoy spending time with family, reading and traveling.
