### Why I Became a Medical Provider

"I knew at a young age I wanted to become a labor and delivery nurse. I worked in Bloomington/Normal IL as a labor and delivery nurse for 6 years and loved it. During my time there I worked with a midwife who inspired me to become a nurse midwife. I love being a part of one of the most exciting moments in a woman's life."

*I am originally from Bloomington/Normal IL. I am so happy to be back in central IL and closer to family after working in Northern IL as a nurse midwife since 2016. When I'm not working I am exploring the area and all the restaurants and activities the area has to offer.*

*I want patients to feel comfortable and involved when they come to see me. I never want patients to be nervous or scared to come to the office because they don't know what to expect. One of my favorite parts of working as a nurse midwife is educating patients, and I strive to teach patients at every visit.*
