

Meet Your Internal Medicine Physician

Amber Wooldridge, MD

Why I Chose Health Care

I began working in health care as a CNA at a memory care facility, which opened up the world of medicine to me. I found that I enjoy working with the geriatric patient population.

MD

Southern Illinois University School of Medicine, Springfield, IL

Bachelor's Degree

Biology, Eastern Illinois University, Charleston, IL

Certifications

BLS

Professional Memberships

American College of Physicians

Awards

Interpersonal and Communications Skills Award,
Team Player Award

Department of Internal Medicine

In the Department of Internal Medicine, Dr. Wooldridge provides comprehensive medical care for patients 18 years and older with a special focus on preventative and geriatric care, hypertension, and diabetes management.

Outside of work, I enjoy spending time with my husband and our two French bulldogs. I also enjoy nature walks and going to the gym.

Several of my mentors in residency are part of Christie Clinic and have been very happy with their choice. I'm excited about the resources available to me to give the best medical care possible for my patients.
