

Meet Your Nurse Practitioner

Joy L. Johnson, APRN

I have seen hundreds of patients suffer with diseased blood vessels ranging from crippling effects to loss of limb. It is a great reward to know that I can provide these patient hope and good healthcare that may prevent such devastating outcomes.

Why I Chose Health Care

Being a patient myself is what inspired my choice to pursue a career in healthcare. I saw that the profession can influence how a patient values their own health and I want to be a part of ensuring that each patient is the recipient of the healthcare they believe in.

Education

Master's Degree Nursing, Adult Gerontology Acute Care Nurse Practitioner Program, Walden University, Minneapolis, MN
Bachelor's Degree Nursing, Walden University, Minneapolis, MN

Certifications

Adult-Gerontology Acute Care Nurse Practitioner

Professional Memberships

American Nurses Association

Department of Vein & Vascular

In the Christie Clinic Vein & Vascular Center, Joy offers comprehensive vascular care for all vascular disorders including varicose veins, aneurysms, stroke, poor circulation and other diagnoses related to the arteries and veins.

Outside of work I enjoy being with my family, reading and watching mysteries, gardening, and shopping.
