American College of Physicians

Department of Internal Medicine

In the Department of Internal Medicine, Dr. Walker diagnoses and treats non-surgical illnesses in adults.

Dr. Walker is active in his local church and enjoys spending time with his family. Dr. and Mrs. Walker live in Champaign with their six lively children who are all heavily involved in school activities and sports.

As a healthcare organization, Christie Clinic is focused on promoting health and wellness throughout Champaign and the surrounding communities, and Dr. Walker is a great example of that commitment. He enjoys outdoor activities and is an avid runner.

He is the Medical Director for Christie Clinic's Transformations Medical Weight Loss Program. Dr. Walker's staff would describe him as articulate, creative, thorough, down-to-earth, and compassionate.

Obesity is the root of many other medical problems. I feel that when I treat this I am helping the whole person. We call the weight loss clinic 'Transformations' because we hope to transform lives not only medically, but also on many other levels.

CHRISTIE CLINIC

We listen. We care.
