

Meet Your Radiologist

Andrew Kim, MD

Ever since I was a child, I would regularly attend doctor appointments with my mother to help translate. Through these interactions, I learned the immense value healthcare providers bring to patients. Healthcare is an essential part of society and being given the opportunity to be a part of this service is truly humbling.

Why I Chose Healthcare

Radiology is a continuously evolving field that utilizes technology for both diagnosis and treatment. Technology has always been a passion of mine and learning how it is applied in healthcare in new ways each day is truly fascinating.

Fellowship

Breast Imaging, University of Washington, Seattle, WA

Residency

Diagnostic Radiology, University of Washington Department of Radiology, Seattle, WA

MD

University of Illinois at Chicago College of Medicine, Chicago, IL

Professional Memberships

American College of Radiology, American Roentgen Ray Society, American Society of Clinical Oncology, Radiological Society of North America, Society of Breast Imaging

Department of Radiology

In the Department of Radiology, Dr. Kim specializes in breast imaging and uses state-of-the-art equipment to provide screening, diagnostics, and aid in surgical planning.

Tennis has been the go-to sport I've regularly played since my time at Centennial high school. As it has become harder to keep up athletically, I have been picking up the Pickleball racquet as well. We also love to go on camping expeditions with our dogs to get our much needed fill of the outdoors. But if anyone has a TV show or movie recommendation, I won't say no.
